Simon HAZARD

Fullstack developer

Le Havre
simon.hazard@outlook.fr - simonhazard.com - @SimonHazard on Github

DESCRIPTION

Developer specializing in the TypeScript ecosystem, open to working with any modern framework or library. Passionate about front-end development, I stay curious about new technologies and best practices, always striving for clean and high-quality code.

EXPERIENCE

Proxiad Axe Seine **April 2021 - now**
Fullstack Developer (Consultant)
Work on multiple projects integrating different development teams :

e-beton (Vinci Start-up) ~ 3.5 years

- Main use of TypeScript, React and GraphQL
- Architect and set up monorepo platforms with modern tools (Shadcn, Turbo, Apollo, Tailwind, etc...)
- Promote DevOps culture by implementing CI/CD pipelines and automation (GitLab, Terraform, Docker)
- Work with cloud-based architectures on GCP (Doc AI, Cloud Run, Cloud Functions)
- Ensure high code quality through rigorous code reviews and best practices

Safran Nacelles ~ 9 months

- Developed frontend applications using Angular and TypeScript
- Led UI development tasks with high autonomy and technical ownership
- Implemented and enforced frontend best practices and performance standards
- Actively contributed ideas and improvements to enhance user experience and code maintainability

Edifycad **April 2020 - August 2020**
Final year internship
Contribution to a company-exclusive component library (React / TypeScript / Storybook / EmotionJS)

Caux Seine Agglo **January 2019 - February 2019**
Final year internship
Web application design and development (JavaScript, PHP, AJAX, MySQL)
