

Simon HAZARD

Fullstack developer

Le Havre

simon.hazard@outlook.fr - simonhazard.com - @SimonHazard on Github

DESCRIPTION

Developer specializing in the TypeScript ecosystem, open to working with any modern framework or library. Passionate about front-end development, I stay curious about new technologies and best practices, always striving for clean and high-quality code.

EXPERIENCE

Proxiad Axe Seine

April 2021 - now

Fullstack Developer (Consultant)

Work on multiple projects integrating different development teams :

e-beton (Vinci Start-up) ~ 3.5 years

- Main use of TypeScript, React and GraphQL
- AI-assisted development. Claude Code: custom skills, project guidelines, MCP integrations.
- Architect and set up monorepo platforms with modern tools (Shadcn, Turbo, Apollo, Tailwind, TanStack, etc...)
- Promote DevOps culture by implementing CI/CD pipelines and automation (GitLab, Terraform, Docker)
- Work with cloud-based architectures on GCP (Doc AI, Cloud Run, Cloud Functions)
- Ensure high code quality through rigorous code reviews and best practices

Safran Nacelles ~ 9 months

- Led UI development tasks with high autonomy and technical ownership
- Implemented and enforced frontend best practices and performance standards
- Actively contributed ideas and improvements to enhance user experience and code maintainability

Edifycad

April 2020 - August 2020

Final year internship

Contribution to a company-exclusive component library (React / TypeScript / Storybook / EmotionJS)

Caux Seine Agglo

January 2019 - February 2019

Final year internship

Web application design and development (JavaScript, PHP, AJAX, MySQL)
